

MULTI PURPOSE INDOOR STADIUM

New Creation Sports ground was started in 1990 to offer sports to children and adults in the Auroville bioregion, Tamil Nadu, South India.

Over the years, friends, teachers/volunteers and donors have pooled together their teaching skills and financial resources to its growth; the sports ground now comprises a basketball court, a volleyball court, a running track, 2 tennis courts swimming pool and dance/gymnastics studio. Many tournaments and school sports have taken place on this sports ground.

We are now taking it a step further with a wonderful pioneering project of building a multi purpose indoor stadium over the present basketball court which will offer the possibility of engaging in many more types of sports.

Funding from the GOI was received for the outer structure of the multi purpose indoor stadium. Construction has started and it's awesome to see the ongoing work for this project.

We plan on installing specialized indoor sports flooring that will allow for a variety of sports to take place while being safe on the body, especially the joints (knees, ankles etc...)

We have received funds towards the special basketball turf / flooring and require additional Rs.15 lakhs to complete the project before the end of March 2019.

As this is expensive we need your financial help.

We stress that this project is a one of a kind in the region. Please be a part of our efforts to contribute to the ongoing physical education in this bio-region, for boys and girls, teens and adults.

If you can offer any donation to help towards the completion of the special sports floor; it would be great!

For online donation go to the link below:
under "Select Project" click the options "Others" mention for "AVSRC Multi purpose indoor stadium"
